

TAMPERGUARD™ SNACKBOXES

Feature	Advantage	Benefit
TamperAlert™ Tab (TE)	Specifically designed to protrude upward when torn, alerting the customer that the container has been opened	Increases customers' sense of security that the container has not been tampered with
TamperAlert™ Tab (TE)	Tab remains attached to the container when torn	No loose plastic pieces, therefore no littering
"Do Not Purchase If Tab Is Torn Message" on lid (TE)	Contributes to tamper evidence by alerting customer to the signs of a tampered container	Increases customers' sense of security that the container has not been tampered with
360° VanishingEdge™ Seal (TR)	Designed to create Tamper Resistance by inhibiting the ability to lift the lid from the base without tearing the tab	Eliminates the need for shrink bands / wrap around labels, increasing operator efficiency and reducing operator costs
360° VanishingEdge™ Seal (TR)	Completely seals entire tray. Provides a leak resistant seal to maximize freshness and prevent leaks	Increases customer satisfaction by maintaining product quality, thereby increasing operator sales
360° VanishingEdge™ Seal (TR)	Prevents leaks from wet foods such as salad dressings and sauces	Reduces likelihood of customer frustration caused by leaks, increasing likelihood of repeat business
CrossSeal™ Compartment Technology	Purposefully designed compartment dividers that prevent migration of contents between compartments	Improves product shelf life and application freshness
Juice Well	Captures liquid and reduces contact with food	Increases customer satisfaction by maintaining product quality
Recessed Stacking Platform	Designed for superior stacking to provide greater stability of merchandising displays	Reduces customer complaints from mishaps caused by unstable stacking
Textured Opening Tabs in all four lid corners	Provide secure grip when opening containers	Reduce frustration associated with hard to open containers, increasing likelihood of repeat business
Self-Aligning Opening Tabs	Lid aligns on the container in any direction	Reduces time to close container by not requiring lining up opening tabs
"Lift" Embossing on Opening Tabs	Facilitates easy opening by providing guidance on how to open container	Reduce frustration associated with hard to open containers, increasing likelihood of repeat business
Stacking Stabilizers	Allow for stable stacking of closed containers on top of each other	Stable displays reduce accidental spills and reduce waste and labor needed to restack and clean up

TAMPERGUARD™ SNACKBOXES

Feature	Advantage	Benefit
Smooth Sidewalls	Maximizes product visibility	Enhances product merchandising, increasing the likelihood of impulse sales
Condiment Compartment (SBTG3W only)	Specifically designed to accept Dart Conex Complements and Solo Souffle portion container, either lidded or unlidded, up to 4oz , as well as all conventional pre-sealed portion containers	Increase operational efficiency and speed of assembling the snack boxes
ErgoLift™ Contours (SBTG3W only)	Curvatures that create finger space for easier removal of portion containers from the Condiment Compartment	Enhanced user experience encourages repeat purchases
Universal lid fits all 7 bases	Multiple containers take the same lid	Reduces storage requirements and increases operational efficiency (no lid confusion)
Two-Piece Container	Container functions as an easy to re-close and re-open, leak resistant two-piece container even after the tab is torn	Container versatility increases customer satisfaction, and therefore repeat business, by protecting food contents until ready to be discarded
Reclosable / resealable	Container able to be used for storage and will maintain a leak resistant reseal after opening	Enhanced user experience encourages repeat purchases
Squat Square design	Provides greater product visibility and enhanced modern aesthetic	Enhances product presentation and increases impulse sales
Squat Square design	Maximizes shelf space	Reduces labor cost to restock shelves and gives a full appearance (no gaps)
Separation Lugs	Allow for easy, one-hand separation of nested trays	Increases operator efficiency by speeding up handling of trays, thereby increasing profits
Available in a large variety of sizes and configurations (24 - 32oz 1 cmpt / 2, 3 and 4 compartments)	Suitable for many food applications	Increases operational efficiency by reducing inventory needs
Crystal Clear PET	Excellent clarity makes food stand out	Increase impulse purchases and reduced errors for operators filling orders
Made from Recyclable PET	PETE is known as the most recycled plastic in the United States	Reduces customer complaints due to the positive environmental perception of PETE
Made from Recyclable PET	Commonly accepted in local recycling programs	Decrease the amount of plastic waste destined for landfills
